CREADEV SOFT Company

2023 Jan – 2024 Apr
El Menofia, Egypt

Developed web applications using C#, .NET Framework, and ASP.NET Web MVC.

Implemented front-end features using HTML, CSS, and JavaScript.

Collaborated with a team to deliver project milestones on time.

Enhanced application performance by optimizing code.

Successfully integrated third-party APIs for extended functionality.

Skills

Backend

C# - OOP - Entity Framework Core (EF) -
ASP.NET Core MVC - ASP.NET Core Web API -
SignalR - SQL Server - Solid Principles - Design
Pattern

Frontend

HTML5 - CSS3 - Bootstrap5 -Tailwind - Sass -
JavaScript - Typescript - ReactJs - NextJs -
GitHub

Languages

• Arabic

• English

Certificates

- ITI Certificate Summer Training [↗](#)
- Completed a six-month internship as a Back-End Developer at CREADEV SOFT [↗](#)
- Completed a six-month internship as a Front-End Developer at CREADEV SOFT [↗](#)

Projects

TaskEvaluation, Developed a student grade CRUD operation MVC project. Implemented dependency injection for efficient component management. Currently enhancing the frontend. [↗](#)

Typing Speed Text Game, Crafted an engaging Typing Speed Test Game using HTML, CSS, and JavaScript, offering users an interactive platform to enhance their typing skills. The project features a sleek design, user-friendly interface, and real-time performance tracking, providing an immersive and educational experience for users and potential contributors alike. [↗](#)

Safary Project Backend, The Safari platform is a freelance platform for tour guides . I leveraged AutoMapper for seamless object mapping, implemented dependency injection for efficient component management, integrated JWT token authentication for secure user access, and designed a dedicated Account Controller for user registration and login functionalities.

Safary Website Project, he Safari platform is a freelance platform for tour guides. This the project of frontend we use many technology like (React , TypeScript , tailwind , sass , NextJs) [↗](#)

My Portfolio, personal portfolio. This the project of frontend we use many technology like (React , TypeScript , tailwind , sass , NextJs) [↗](#)
